

Question #5 - Will our Kinder-aged program continue to be a unique, separated grouping?

At present our preschool Pods are limited in size to 14 per 'stable grouping.'

Due to space considerations, we will keep Kinders separate. However, we do plan to have them rejoin Primary at a later time, once we're allowed to increase our numbers.

We are planning to continue using the current Kinder model at the start of the next school year, through which we can offer a full-day, up until 5:00 program.

We'll have a larger Kinder cohort next year and we're even expanding that classroom to make room.

We are very proud of the strong Kinder programming we offer at Casa and how it successfully helps students transition into Lower elementary!
