

**Question #6 - Will current protocols continue into next year?**

Next school year, we anticipate some changes in terms of the number of students we can accommodate in each classroom space.

While the county may ease certain protocols, we also anticipate that our following measures will continue to be in place.

When you picture August, the following will likely still be required:

- Students/staff will wear masks
- Physical distancing will still be practiced
- Current sanitizing and cleaning protocols will be upheld
- Pods will stay as stable groups; ie. students are not to be mixed

One result of these protocols continues to be the challenge of offering extended care to the Elementary. Until we are allowed to and can see a safe path to mix Pods, extended care will not be available for the Elementary.
